

Tdap/Td Booster

A new 2010 school requirement for
7th graders.

To protect pre-teens/
teens from harm, let's
boost their immunity
against disease.

Tetanus-diphtheria-acellular pertussis vaccine (Tdap) to protect against tetanus, diphtheria and pertussis (whooping cough)

Other CDC recommendations for teens include:

- **Meningococcal vaccine** to protect against bacterial meningitis.
- **Human Papillomavirus vaccine** to protect boys and girls against four major types of HPV that cause cervical cancer and genital warts.
- **Hepatitis A vaccine**
- **Annual Influenza vaccine** each fall.
