

The TOP 12 Hand Washing Jingles

To the tune of: “On Top of Old Smokey”
Written by: Lydia Gray, Willis Intermediate School

In the school bathrooms
Or kitchen at home
Please wash you hands
Wherever you roam.

Lather with soap
Then scrub with ease
And also do this
Right after you sneeze.

Right now it’s flu season
And germs are in town
But washing those hands
Will take the germs down.

And if you wash your hands a lot
You’ll stay away from
The nurse office cot.

We all need to wash our hands, wash our hands, wash our hands.
We all need to wash our hands to keep the germs away.
First you get a squirt of soap, squirt of soap, squirt of soap, squirt of soap.
First you get a squirt of soap and rub them really good.
Then you rinse with warm water, with warm water, with warm water.
Then you rinse with warm water until the soap is gone.
Dry them with a paper towel, paper towel, paper towel.
Dry them with a paper towel.
Now your job is done.

Oh go wash your hands.
With a whole lot of soap.
It’s good for your health.
It will keep you from sickness,
Every time that you sneeze,
Or when you blow your nose,
To get rid of those germs,
Wash your hands for 20 seconds,
Every time you come in from playing outside, go straight to the sink,
And scrub the germs off.
It’s so easy to do and it takes to little time.
So be healthy night and day,
And just go wash your hands.

Wash, rinse, dry your hands
Take away the germs
You need to be clean
If you know what I mean
Now listen to these terms...

Water soap and a good scrub
This is what you need
To do the job
Oh, yes indeed
Now you can take the lead.

Dashing to the sink
To wash the germs away
Better hurry up
Or else they’re going to stay!
HEY!
Turn the faucet on
Lather up some bubbles
Rub your hands real good
And rinse away your troubles
HEY!
Chorus: Oh, wash your hands, wash your hands
Keep the germs away
You won’t cry and you won’t sigh
And happy are your days!
