

# **THIS IS WHAT HAPPENS WHEN A FLY LANDS ON YOUR FOOD!**

**Flies can not eat solid food, so to soften it up they vomit on it.**

**Then they stamp the vomit in until it's a liquid, usually stamping in a few germs for good measure.**

**Then when it's good and runny, they suck it all back again, probably dropping some excrement at the same time.**

**And then when they have finished eating, IT'S YOUR TURN!**

## **BON APPÉTIT!**
