### **FOR IMMEDIATE RELEASE**

For further information contact Jesse Carter, public information officer, at 740-203-2085.

**DELAWARE, Oh., Sept. 14, 2011** – The Delaware General Health District Vital Statistics office is moving temporarily to a ground floor space while an elevator is replaced.

Starting Sept. 23, the Vital Statistics office will operate in the lobby of the Health District Clinic, 3 W. Winter St., until further notice. Persons seeking birth and death certificates should enter the west clinic entrance. Signs will direct clients to the proper entrance.

The relocation is for the convenience of clients while the elevator is out of service in the four-story building at 1 W. Winter St., where Vital Statistics usually operates on the second floor.

Persons unable to use stairs also can get assistance from the Division of Environmental Health and other Health District units in the same ground-floor lobby throughout the elevator project.

The elevator replacement project is expected to be completed in about two months.
