

Batteries

Batteries of all types are accepted at the DKMM (Delaware, Knox, Marion, Morrow) Solid Waste District's Household Hazardous Waste Drop Off events. Trade in lead acid (car, boat, etc.), batteries when a new one is purchased. For your safety, tape the terminal ends of small batteries and store them in an airtight plastic bag.

Sims Recycling (65 London Road, Delaware, 43015; 740-363-9192) accepts lead acid (car, motorcycle) batteries. Call for details.

Batteries Plus Bulbs (8593 Columbus Pike, Lewis Center, 43035; 614-396-5490) accepts lead acid batteries, many types of rechargeable batteries, and alkaline (household) batteries; fees may apply. Visit www.batteriesplus.com/t/recycling for more details.
