The Delaware General Health District may keep this record in my medical file. DGHD will record what vaccine was given, the date the vaccine was given, the name of the company that made the vaccine, the vaccine lot number, the signature and title of the person who gave the vaccine, and the address where the vaccine was given. I understand that this information will be released to a state-wide Immunization Registry for the purpose of immunization tracking recall and recording, unless I request otherwise. I have read or have had explained to me the information sheet about the vaccine. I have had a chance to ask questions, and they were answered to my satisfaction. I believe I understand the benefits and risks of the vaccine and ask that the vaccine be given to the person named above for whom I am authorized to make this request. My medical information will not be shared without an authorization to release information. A copy of the Health Districts Notice of Privacy Practices (HIPAA) will be provided and is also located on our website at delawarehealth.org.
