FINANCIAL REPORT for AUGUST 2023

Fund Balance

Overall, DPHD had a good month for August 2023. We received our 2nd half tax settlement and the 2nd part of the local subdivision payment. We ended the month at nearly \$9.8 million in the Public Health Fund, an increase of about \$1.6 million from the previous month. This works out to 512 days of cash. The other funds ended at a little over \$2.2 million, a decrease of about \$60k from the previous month. This works out to 154 days of cash, but keep in mind most of the expense was for the new building in 2023. As of August 31, 2023, all current cash assets total over \$12 million. Compared to last year, we are up over \$1.1 million in the Public Health Fund and up almost \$800k in the other funds.

Revenues

We are at 103% of the 2023 budget amount in the Public Health Fund and only about 50% of the budget amount in the other funds. We should be at 67%. Compared to last year, we are up for the month and up for the year in the Public Health Fund and the other funds.

Expenditures

Expenditures are steady overall, only spending 55% of budgeted funds to date. We are also spending less than last August in the Public Health Fund. However, we've spent about \$300k more this YTD than in 2022. In the other funds, we have spent 54% of budgeted funds and less in August 2023 than last year by about \$310k. Overall, we've spent about \$700k more YTD, which is directly attributable to the new building completion.

Liabilities

As of 8/31/23, we've paid about \$80k in interest for the new building mortgage and repaid almost \$17k in principal. Our current mortgage balance with First Commonwealth Bank is \$3,983,022.75.

Performance

Since our other funds are primarily grant funds and special revenue funds for ORC required programs, the more that is spent in those funds reduces the burden of the Public Health Fund to support those programs. In August 2020, the other funds only paid for 22% of the YTD expenditures. That percentage was 39% in August 2021, and 40% in August 2022. Now it's 43%.

Thank you,

Matt Clark, Fiscal Officer

Rationale

The Delaware Public Health District (DPHD) Ethics Advisory Committee (EAC) will provide guidance to DPHD staff, management, and community partners on ethical issues. The goal is to encourage and support an institutional culture of ethical awareness and high ethical standards through a process of open and transparent decision-making.

The EAC will consist of the DPHD Senior Leadership Team. The Health Commissioner has the authority to invite additional staff, Board of Health members, Delaware County Prosecutors Office, or community members to participate as appropriate. The Delaware County Prosecutors Office will review all outcomes of the EAC. The EAC will use the Public Health Code of Ethics as a framework for conducting ethical analyses.

The EAC provides the administrative function of ethical analyses. In addition, the EAC will:

- Complete continuing education and training
- Review suggested ethical dilemmas and determine if they are appropriate for analysis.
- Facilitate and/or participate in analyses with at least two committee members at each analysis.
- Prepare reports describing analyses outcomes and recommendations (reports will include all perspectives from the analysis).
- Coordinate reporting of ethical analyses, recommendations, and results back to participants.

To ensure an open and transparent process, key stakeholders may be invited to ethical analyses. When appropriate, the EAC may also invite non-stakeholders, such as content experts, to participate. All staff will have the responsibility of bringing ethical issues to the EAC. EAC members will ensure that managers and other staff with key information will be involved in determining whether to move forward with a full ethical analysis.

Once an ethical analysis has been completed, the EAC will review the recommended course of action with the Board of Health. This recommendation will be supported with the results of the analysis. The Board of Health will have the ultimate authority to make the final policy decision. The Health Commissioner will determine how to implement their decision.

Ethical analyses will focus on policy or operations and will not focus on individual or group behavior. Suspected unethical behavior on the part of an individual or group will be referred to the appropriate DPHD Program Manager or Human Resources.

Guidance for Ethical Analysis

The EAC will reference the <u>APHA Public Health Code of Ethics</u> in all analyses. Each analysis will consider the following guidance:

- Permissibility: "Would the action being considered be ethically wrong even if it were to have a good outcome?"
- Respect: "Would the proposed action be demeaning or disrespectful to individuals and communities even if it benefited their health?"
- **Reciprocity**: "Have we done what is reasonable to offset the potential harms and losses that the proposed action imposes on individuals and communities?"
- Effectiveness: "Is it reasonable to expect, based on best available evidence and past experience, that the proposed action would achieve its stated health goals?"
- Responsible Use of Scarce Resources: "Would the proposed action demonstrate good stewardship and deserve the trust that the public has invested in public health practitioners?"
- **Proportionality:** "Would the proposed action demonstrate that public health practitioners are using their power and authority judiciously and with humility?"
- Accountability and Transparency: "Would the proposed action withstand close ethical scrutiny and be justified by valid reasons that the general public will understand?"
- Public Participation: "In deciding on a proposed action, have all potentially affected stakeholders had a meaningful opportunity to participate. If some are to be deliberately excluded from decision making, is there an ethical justification for doing so?"

Informed Decision Making

Efforts will be made to gather information from those who will be affected by the decision. EAC members will work to collect information from multiple perspectives and both short-term and long-term effects of the decision. Research on the public health consequences, any precedent within the health district, and how other jurisdictions have addressed similar issues should be conducted during each analysis.

As additional information is gathered it is important that prior decisions are revisited. The EAC will annually review past analyses to determine if new information is available. Stakeholders may appeal to the EAC to revisit a past decision if new information is available. The new information should be provided to the Health Commissioner, in writing, when the appeal is submitted.

Communication

The EAC will share recommendations with the Board of Health within one month of the analysis being completed. The Board of Health will discuss the recommendations, ask for additional information if needed, and vote on their final decision. The Board of Health decision will be shared with staff at the following staff meeting and in the Health E-News. If the decision impacts external stakeholders, they will be notified of the Board of Health decision within 30 days. Decisions will be added to the DPHD website.

The advance will be returned to the General/Public Health Fund upon sufficient fund balance requirements.

The Board approved item on consent.

6.018 FUNDS

A. Fleet – Requested Board approval to create a new child key of the Public Health Fund (Fund 702). Currently, DPHD vehicle charges are booked to the Administration child key and various grants/funds where an employee is assigned a DPHD vehicle. DPHD fiscal staff will implement an indirect cost plan commencing in FY2024, and segregating these charges will make cost analysis easier and more transparent. Also, it allows for employees not to be tied to a specific vehicle, where then costs would be more equally shared DPHD-wide. This was specified in the approved 2024 DPHD Budget. The new name and child key number will be "Fleet" and TBD.

The Board approved item on consent.

B. Other EH Fee Based Programs – Requested Board approval to create a new child key of the Public Health Fund (Fund 702). The Environmental Health Division is requesting a new child key to replace three child keys which are redundant and no longer needed. The three child keys that will remain for run-off in FY2023 but will be closed next year are Emergency Response (70225442), Residential Services (70225445), and Food Protection (70225447). This was specified in the approved 2024 DPHD Budget. The new name and child key number will be "Other EH Fee Based Programs" and TBD.

The Board approved item on consent.

6.021 AUTHORIZATION/EMPLOYMENT

A. Administrative Assistant II/ Ms. Malissa Clark — Requested Board approval to hire Mrs. Malissa Clark to full-time Administrative Assistant II position with the Environmental Health Division. This position is 40 hours a week.

INFECTIOUS DISEASE

Outbreaks, Reports, and Investigations:

- DCRU investigated several new suspect cases of tuberculosis. TB activity remains elevated in Delaware County.
- PH and EH completed the investigation of an e. Coli outbreak at a camp. The camp and
 campers were very cooperative and through inspection, stool sampling, and case and
 control interviews the Health District believes that the disease was likely brought into the
 camp from an ill person and spread by shared activities during camp, not through any
 action taken by the camp. Guidance was provided to the camp to prevent future
 outbreaks.
