

Tires

Tires are banned from Ohio landfills because they hold methane gas and undermine the integrity of the landfill. They are a public health nuisance because they hold stagnant water that can breed disease-carrying mosquitoes.

Until tires can be disposed, make sure they are free of water, cover and store them.

When purchasing new tires, let the tire store take care of the tires you are replacing. The Delaware County Solid Waste Transfer Station accepts tires for a fee. The transfer station is located at 892 US Rt 42 North, Delaware 43015 or call for details at 800-828-8171.

Liberty Tire Service of Ohio accepts tires for a fee. Call 614-871-8097 for more information.

Pond Tires, 3900 Ohio-3, Sunbury, OH 43074. Call 740-965-5711. Accepts passenger, light truck and agricultural tires.
