About the Board of Health	<p>The Delaware Public Health District Board of Health is the governing body for the district's health department. Responsibilities include establishing public health programs, appointing and employment of staff, financial management and rule-making authority. Board of Health members are appointed by elected officials who serve on the District Advisory Council or by the city they represent.</p> <p>As a combined health district, the number of board members is determined by contracts between the city health districts and the general health district (the area of the county exclusive of cities). In our health district, the contracts call for two members to be appointed by the City of Delaware, one member to be appointed by the City of Powell, one member to be appointed by the City of Sunbury, and five members to be appointed by the District Advisory Council from the remainder of the health district.</p> <p>Among the board members, one position must be filled by a physician. The state law also requires geographical representation from the area served. The provisions for appointments to boards of health are addressed in Ohio Revised Code.</p>
